

I am writing in opposition to the potential expansion of the Low Power FM service. If it is expanded, it could replace the K-LOVE signal in many areas it currently is heard. This would be a disservice to my local community. Personally, I frequently listen to K-LOVE as I am driving and the positive, family-friendly programming, without commercials is a service I cannot find on any other station. Not only is the music uplifting and encouraging, but K-LOVE provides a lifeline to those who are suffering, lonely, and desperate to find hope. The trained staff are equipped to help those contemplating suicide or simply overwhelmed with daily stresses.

If K-LOVE were to be displaced by an LPFM broadcaster providing other programming, it would certainly have a negative impact on my local community. It is in the public interest to maintain the service provided by K-LOVE because the programming is wholesome, truthful, listener-sponsored, and has an immeasurable positive cascading impact on our society.

Thank you for your attention. May God bless you.
